- Explanation on why some people are charged and so are not. Conference numbers historically were funded by legacy phone companies. Some companies do not participate in funding conference lines.
- Apps are tools to help with accessibility. It does not alter the meeting in any way. The phone meeting number is a conference number. Feels people would be happy to come back if they had a different way to contact the meeting. Adding ways to access is seen as service as in Step 12.
- 100 Pounders Phone meeting pays for their website(s) and is strictly for the meeting's use.

- Discussion one person calls a free conference call for a morning meeting, but there is a man who has to stand as a responsible party for the conference call the app. Users have to communicate for him for business,
- T Mobile charges \$10/1000 minutes a lot of people don't call and having a work around to connect
- Listing access and that we have not tested or endorsed any method of calling or connecting to our meeting. Vote to list access:
